

## RD Certificate Number: EWS807C

### Spacetherm Multi Insulation

#### Description

This is an assessment of Proctor Multi, it is a high performance thermal laminate specifically designed to be laid directly onto existing floors & walls. Spacetherm Multi consists of Spacetherm aerogel insulation blanket bonded to a 6mm Magnesium Oxide board. As the product can achieve similar performance to other insulation systems but at a fraction of the thickness with a K factor of 0.015W/mK the solution is ideal for use in applications where low U-values are required and room space is at a premium (such as loft conversions or other refurbishment projects).

#### Scope of Registration

Due to space limitations, the Registered Detail certificate should be consulted for the scope of this registration.

#### Validity

This system has been checked for compliance in accordance with English, Welsh and Scottish Building Regulations

Registration was first issued on 31/03/18 and is valid until 31/03/22 providing there are no amendments to applicable regulations.

**Issue dated** 21/03/2019
